Peptide Synthesis Service Testimonials

"Over the years, I have used several companies to synthesize peptides for my research. My experience with Biomatik has been top notch. Biomatik offers quality products at competitive prices. In fact, the latest peptide I ordered from them was about half the cost of several competitors. Their customer service personnel are competent and professional, making the process of ordering peptides quick and pain-free. I will continue to use Biomatik for all my peptide synthesis needs."

Dr. Webb

Dept. of Cell & Tissue Biology
University of California, San Francisco
San Francisco, CA 94143, USA

"Our team here is a very satisfied and happy customer. Your service is prompt and the peptides are working well for us. We actually ordered a peptide from another company because one of our scientists like to use the same company, and I placed this order with you 2 weeks later than the other one, same quantity just different peptide. Yours arrived earlier than the other one. We are very impressed. If you ever need any testimonials (which by now I don't think you need any further), just let me know."

Dr. Chen

Vice President, Business Development
(privately held biomedical company)
Riverside, CA 92507, USA

"Easy-to-obtain prompt quotes online, reasonable prices, very responsive service, and high quality peptides. I will continue to use Biomatik and recommend them to colleagues."

Dr. Napper

Head, High-Throughput Screening & Drug Discovery Lab
Nemours Center for Childhood Cancer Research
Wilmington DE 19803, USA

"My boss and I are really glad we synthesized the peptides with you since your dedication and undivided care in our project are apparent. Definitely should we need more peptide synthesis in the future we will be sure to contact you."
